

AGROBIOTECH is looking for distributors in Africa to represent and distribute agricultural inputs, namely organic and organomineral fertilizers, plant growth regulators, biostimulants and others.

spadparcerias@gmail.com

Greetings.

We are at the epicenter of an agricultural revolution, and we invite your company to lead this transformation with us! AGROBIOTECH, a renowned Ukrainian laboratory, is seeking partners in African markets for exclusive representation and distribution of our unparalleled range of fertilizers, plant growth regulators, biostimulants and other essential products to boost agricultural development in your country or region.

***Why AGROBIOTECH?**

***Adaptation to African Soils*:** Our products are developed with precision to meet the unique characteristics of African soils, guaranteeing exceptional results.

Uninterrupted Availability: We ensure a constant supply of high-quality agricultural inputs, meeting seasonal challenges efficiently.

***Integrated Solutions*:** From planting to harvesting, we offer integrated solutions that maximize the yield and quality of crops.

We are open to creating consortiums, where two or more companies can join forces, to place orders and subsequently share distribution points. This way, you can reduce transport, storage and logistics costs, and increase your competitiveness and market reach.

***Personalized Technical Support!**

Our technical team is available to carry out visits and offer specialized training to your staff. We believe that knowledge is the key to success, and we are committed to empowering your team with the skills they need to reach their full potential.

***Submit your Letter of Intent Now.**

To take the first step on this exciting journey and become the exclusive supplier of AGROBIOTECH fertilizers and other products in Africa, send your letter of intent to spadparcerias@gmail.com. We look forward to meeting visionary entrepreneurs who want to transform African agriculture with innovation and sustainability.

The total fertilizer market in Africa is valued at more than 250 million dollars, South Africa and Nigeria represent the largest distributors on the continent, however the margin of representation of these two market giants represents less than 40%. In this sense, there is a lot of room for growth in the distribution of agricultural inputs. Take advantage of this opportunity...
